WHAT SETS CAREWORKS APART?

Aside from the fact that CareWorks was originally designed specially for Faith in Action groups, it is also a very unique software program because the user can easily access their own data.

As I have mentioned previously, if you have Microsoft Access on your computer, you can design your own reports and queries if you need information that CareWorks doesn't already provide.

Well, now I would like to offer to help out those of you who are paid up on your Technical Support. I have been helping a few groups with simple queries and I will be happy to share my knowledge with anyone who is interested!

Please give a call if you need some specific information that you haven't been able to derive from the 70+ reports that come with CareWorks and I will see what I can do for you!

NEW PROGRAM DIRECTORS

Are you a new Faith in Action program director who may have inherited CareWorks? Would you like to have a 1/2 hour training to familiarize yourself with the program and see if it can be more beneficial to your program than it currently is? Please give me a call!

FUNDRAISING IDEAS

We received a flyer from Patti Kleist at Faith in Action West Sound, Belfair, WA about a new fundraiser.

They are planning an Antique Appraisal Fair. A group of experts will be on hand to educate folks on the value of their "treasures". The moderate cost of having an item or multiple items appraised will be used as their proceeds to help seniors in the area. I believe the appraisers must be donating their time and expertise!

Would this be something that your program could profit from as well?

SUGGESTIONS

We like to hear from CareWorks users. If you have a suggestion for a way to improve CareWorks or a feature you would like to see, please email us at: speck@csiginc.com or call 845-383-3800 ext.100 or our toll free number 866-274-4462 ext.100.
