IMPORTANT NEWS— DO YOU HAVE MS VISTA ON YOUR COMPUTER?

We have been able to upgrade CareWorks so it is compatible with the Microsoft VISTA operating system. It continues to work with Windows XP as well.

There were a couple of minor changes that needed to be made for maximum efficiency and now those have been completed.

WIDESCREEN MONITORS

We had a couple of customers whose CareWorks MAIN MENU looked askew when it was installed on their computer with a widescreen monitor. We have a fix available for that now, so please call or email the office and we will get it aligned for you.

EXPORTING TABLES TO MS EXCEL

We have had a feature that allowed our customers to export the Volunteer or Receiver tables directly into MS Excel from the Main Menu of CareWorks. There were some problems with compatibility depending on the version of MS Access that might have been installed.

That feature has been fixed! I am certain you will find this to be a valuable tool if there is information you need that is not provided in the Careworks reports.

NEW PHONE #

Please note that my extension has changed to "100" (instead of 101)

FUNDRAISING IDEAS

Spring Fling! Do you have some interesting historic or charming homes in your area?

How about arranging for a Spring House Tour of 6 or so homes? You can charge admission and perhaps serve a luncheon at the end of the tour.

Often homeowners are proud to show off their property and open it to the public for a fundraising opportunity! The entire community benefits.

SUGGESTIONS

We like to hear from Faith in Action groups. If you have a suggestion for a way to improve CareWorks or a feature you would like to see, please email us at: speck@aboutcareworks.com or call 845-383-3800 ext.100 or our toll free number 866-274-4462 ext.100.
