

What Works

A complimentary Newsletter from CareWorks Software

WIN A FLASH DRIVE!!!!

We want to make it even easier for you to backup CareWorks! Although we remind CareWorks users to be diligent about their backups, sometimes they are a bit negligent. It is **so** important to protect your data! CareWorks was designed to handle backups on floppy disks, but now they seem antiquated!

If you plug a flash drive into your USB port, it will appear when you click on the BACKUP button from the Main Menu of CareWorks. Your data will be zipped and secure. If you accidentally delete an entire record, it can be restored using the CareWorks Restore program that came on your CD. If someone steals your CareWorks computer (which actually happened to one group!), we can get you up and running in no time if your data has been backed up.

So, we want to make it easy for you and you can back up everything else on your computer, too! Please send me an email (with FLASH DRIVE in the subject line) for a chance to win a flash drive! I will draw names before Thanksgiving and mail out brand new flash drives to the winners!

FUNDRAISING IDEAS

This idea has been mentioned before, but it is worth repeating. You can encourage family members to donate to your program in memory of a former Receiver or Volunteer. Then, when you send out newsletters, you can have one section devoted to "In Memoriam" gifts received.

Having the Receiver or Volunteer further honored by being mentioned in your newsletter will only encourage more donations. What a nice tribute and your program benefits as well!

SUGGESTIONS

We like to hear from Faith in Action groups. If you have a suggestion for a way to improve CareWorks or a feature you would like to see, please email us at:

speck@aboutcareworks.com or call 845-383-3800 ext.101 or our toll free number 866-274-4462 ext.101.
