## VERSION 3 IS HERE!

We have heard what you want and what you want is available in Version 3. Some new features include: an "Export" button on the *Main Menu*, allowing you to send Receiver and Volunteer tables right into *Excel*; a field for cell phone numbers; timesheet entries reflect the actual date service was performed; the drop down menu goes to 2012. Be sure to contact us to get your copy of latest version of CareWorks software!

## RATE INCREASE

Effective January 1, 2006 the cost for CareWorks will now be \$500 and an additional \$100 a year for tech support.

## FUNDRAISING

Looking for something fun and easy and draws in members from the community? Try a book sale. Ask for donation of gently used books and then sell them, \$.50 for paperbacks \$2 for a hardcover. Most people enjoy a good read and don't want to have to pay full price. You could even "Starbucks" it up selling coffee and cakes.

## CAREWORKS COMMENTS

From Susan Cable, CareWorks user from Slingerlands, NY.  
"We have been running CareWorks for about a year and a half, while our programs has been expanding to 500 clients and ... volunteers. We could not have continued to support and grow our program with our former database and spreadsheet methods. ... The 'Find a Volunteer' feature, which includes the days and times of the volunteers availability, is consistently useful. ... There are many features of CareWorks that help us run our volunteer program, and we use it everyday."
